DETAILED ACTION

Response to Amendment

In the amendment filed 10/22/07 and Supplemental amendment filed 2/7/08, the following has occurred: Claim 1 has been amended. Claims 1-8 are presented for examination.

Information Disclosure Statement

The information disclosure statement filed 6/24/05 has been entered and acknowledged.

Allowable Subject Matter

Claims 1-8 are allowed. The following is an examiner's statement of reasons for allowance: The primary reasons for the allowance of claims 1-8 is the inclusion of the limitation in the claims, which is not found in the prior art references, of obtaining color information from color maps and image maps of a plurality of races, in order to find matching eye shadow and rouge colors and desirable images. This along with further limitations set forth by the claims render the application allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

In related art (Coloration Issues in Computer Generated Facial Animation) Patel discloses the uses of colour for both modeling the appearance of the face and for enhancing

communication during facial expression and animation.

In related art (6,293,284) Riggs teaches the displaying images from no makeup to full makeup with all, products, such as eye shadow, eye liner, lip liner, and blush.

The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure as background material and is not of particular significance. These prior art patents fail to teach or fairly suggest a obtaining color information from color maps and image maps of a plurality of races, in order to find matching eye shadow and rouge colors and desirable images.
